LAM NGOC LONG

Java Developer

Hello, I am Lam, Java Developer soon to graduate at OpenClassrooms

My skills

I create Java applications for the web.Here are some example applications that I worked on:

- An online mini game
- an online cinema ticket booking application
- A SaSS project management application for businesses

After completing my Master Web Developer diploma at Ecole ECE, I continued in Java Application Development at open classrooms. I am passionate about backend development. I work a lot with methods such as Domain-Driven Design, SOLIDs concepts and agile project management
